

## Like A Song In Your Head

Daniel Schuhmacher

You and I  
We came too close  
Now I can see  
How I was fooled  
You're rid of me  
You let me go  
So easily  
You played it cool  
I know your private thinking  
That it ain't all that  
That we're doing good  
But I got news for you  
It's gonna hit you like a heart attack  
You might be missing me

Even when I'm gone  
I'm always there  
Like a song  
In your head  
That just go on go on  
So on so on  
It's all repeat  
You can't escape  
And when I'm gone  
I'm always there  
Like a song  
In your head  
That just go on go on on  
so on so on

You might have gotten over me  
But baby look, you won't believe  
I hate to beg  
Don't wanna go  
But I'm the one  
You miss the most  
I know your private thinking...  
Even when I'm gone  
I'm always there  
Like a song in your head...
