

Please Stay Tonight

Daniel Schuhmacher

Why can't this be love
Oh just me and you
Like this stars above
See what love would do
With you on my side
I wanna live with you
It's an end away
oh baby more than two

Please stay tonight
Oh love is like the universe
No dream's too high
You're the last and you're the first
Oh baby I know
I never let you go

Where did we go wrong
When two hearts collides
Does my heart belong
In that lonely night
When the city sleeps
I wanna hold your hand
Why can't this be love
Why has it to end

Please stay tonight
Please stay tonight
