Running Through The Fire

Daniel Schuhmacher

Used to be such a disaster
I just couldn't get it right
They said I didn't have it in me
You bet I never took the fight
Now I know that they were wrong
Here I am, I'm standing strong

I've been running through the fire
I'm addicted to the pain now
Now I'm standing on the borderline
I've been waiting for this moment
Ain't afraid no longer
Now I'm standing so much stronger
I've been running through the fire

Stuck in a moment going nowhere
I saw my life falling apart
Never stepped out in the spotlight
Always hiding in the dark
Life is never black or white
Now I know that I was right

I've been running through the fire…

You could be someone
If you want it to
There's a light out there
Shining down on you

Yeah…..
