

She Loves Me

Daniel Schuhmacher

Oh I'm flying high
barely touching ground
I'm walking on air tonight
I'm up in the stars
I can touch the moon
Yeah I'm chasing satellites
Don't you try to convince me
coming down again

Oh no
I'm perfectly fine up here
Cause she told me
She loves me
Thats all I ever need to know
Oh oh oh oh oh oh
She needs me
And I could never let her go
Oh oh oh oh oh oh
I don't ever wanna change her

She's a fantasy
She's so good to me
I see it but I can't believe
She loves me
Thats all I ever need to know
Nothing gets me down
Not when she's around
Nothing seems to trouble me
Bouncing off a cloud
Floating in the air
This is where I wanna be

Don't you try to convince me
coming down again
Oh no
There's no where I'd rather be
Cause she said
What if she would go away
What if love would turn to hate
What if eyes that used to love

Are turned away
What are we to do
If the love we knew would fade
