

Take Me To The Clouds

Daniel Schuhmacher

First time when I saw you it was paradise
Cause you had only eyes for me
I dont see me in your eyes no more
What happened to a dream
I can only give my heart now
And try to give it to you
Oh help me, come make my dreams come true

Let me take you to the clouds above
Cause Ill never find a better one
Everybody needs so one my heart?
Cause youre the first and youre the last
Let me take you to the clouds above
And if my love is not enough
You will never find someone like me
Cause youre the first, my destiny

Were daytime friends, and nighttime lovers
Why you are so crude tonight
The first heart, the deepest in my heart
And I know my love is right, baby
I can only give my heart now
And try to five it to you
Baby love me, come make my dreams come true

Let me take you to the clouds above
Cause Ill never find a better one?
Everybody needs so one my heart
Cause youre the first and youre the last
Let me take you to the clouds above
And if my love is not enough
You will never find someone like me
Cause youre the first, my destiny
