

Why

Daniel Schuhmacher

You precious little diamond
Oh yeah
You precious little diamond

Babyface oh I want your secret number
You are safe, babe love is just like thunder
I gave my heart without a clue
Baby hear my heartbeat oh it's just for you

Babyface a moment like forever
Sweet in face can we stay together
Don't let it end, don't play my heart
Baby here my heartbeat right here from the start

Why, tell me why you break my heart
You precious little diamond
Why, tell me why I play my part
You precious little diamond

Babyface don't leave me here so lonely
Just in case Baby I'm the only
Do what you want, be who you are
I will follow you
You're like a shining star

Babyface for me there's no tomorrow
I see your craze leaving all your sorrows
It hurts so much, I'm missing you
Baby keep this secret, this last end in blue

Why, tell me why you break my heart
You precious little diamond
Why, tell me why I play my part
You precious little diamond

Why, tell me why you break my heart
You precious little diamond
Why, tell me why I play my part
You precious little diamond

Why, tell me why you break my heart
Why you break my heart
