## **Never Like This**

## **Danielle Bradbery**

Wake up, put my feet on the floor I see colors I've never seen before It scares me and shakes me down the core Cause I know for certain that nothing's for sure

00-00-00-00-00-00-00h, 00-00-00-00-00-00h

It happened so fast, so much to lose Falling fifty miles an hour without a parachute Trying to resist, but I can't refuse I'm feeling feelings that I never knew

00-00-00-00-00-00-00h, yeah 00-00-00-00-00-00-00h, ooh

I throw my heart out in the open I always thought love could be mine, but Never like this I've been afraid of being broken I've laid it all out on the line, but Never like this

I found myself in a situation No walls, no reservations Diving in deep, no hesitations It's taking too time and I'm tired of waiting

00-00-00-00-00-00-00h, oh 00-00-00-00-00-00h, oo-ooh

I throw my heart out in the open I always thought love could be mine, but Never like this I've been afraid of being broken I've laid it all out on the line, but Never like this

Never like this Never like this Never like this

I throw my heart out in the open I always thought love could be mine, but Never like this I've been afraid of being broken I've laid it all out on the line, but Never like this

Never like this Never like this Never like this
