

Young In America

Danielle Bradbery

Let's crank the truck kick up some dust
Leave it all behind just me and you baby
Don't look back stomp on the gas
Tear off the rear view let's go crazy

Maybe Tennessee, LA, NYC, Mississippi
Come on, come on

Woah, oh, ready set go gotta get out of this small town
Woah, oh, the open road, air to breath, the sun is shining down
Oh, waoh, its you and me in a land of the free so baby lets run
While were young in America

We could do the Vegas thing, you could buy me a ring
Make a lot of love and a little bit of money
Go dancing in the rain with the guitars playing
Down there in Memphis how about it honey
Fine white sand barefeet kiss me on the beach
So much to see come on come on

Woah, oh, ready set go gotta get out of this small town
Woah, oh, the open road, air to breath, the sun is shining down
Oh, waoh, its you and me in a land of the free so baby lets run
While were young in America

Ill go anywhere its true
As long as im with you, yeah

Woah, oh, ready set go gotta get out of this small town
Woah, oh, the open road, air to breath, the sun is shining down
Oh, waoh, its you and me in a land of the free so baby lets run
While were young in, young in America, yeah

Young in America, nah nah nah nah
