

Get You Back

Danielle Peck

I'm puttin' on your favorite dress
You know the one you love
That really shows off my legs

I'm gonna march downtown
Right into your favorite place
And that little blonde
Well she better not get in my way
Cause I'm on a mission

I'm gonna get you back
It won't take long, it'll happen fast
You might as well, just face the fact
I'm gonna get you back

It's kinda crowded in here tonight
You got yourself surrounded by every pretty girl in sight
But that ain't gonna stop me
My time is coming around
You'll wonder what just hit you when it all goes down
I can't wait to see your face

Over at the bar
Hey there's your best friend
Think I'll just sneak over and ask him how he's been
Hey I'm fair game
And he's always like me anyway

I'm gonna get you back
Yeah, I'm gonna get you back
