

Come Over

Danity Kane

I know you wanna come over
You can come over

Baby I'm alone tonight
And I wanna feel alright
You already know what I like, boy
(If you come over)
I will lay it down so right
It will really blow your mind
Baby just relax your mind

You know (Whenever you come over)
Ain't nobody thinkin' 'bout leaving
Cause we've got each other in the end
You can stay until the morning.
(I love it when you come over)
Because I don't want to wake up alone
Baby, I'm checking the phone
Boy you belong here (If you come over)
