

Pretty Boy

Danity Kane

Pretty boy, listen up, I could put you on
To the n-n-next level that you should be on
Pretty boy, listen up for a night in town
It's soakin' over here, come and wipe me down

Boy, you so trendy got your Fendi glasses, your paper right
You're fresh out the barber, hate to bother you
But you're lookin' like you're used to the groupies
You're too cute to slow down your groove
And so unique and you better not sleep, oh boy
Show you how to push up on a pretty boy

Oh, oh, oh boy, I know that you been watchin' me
I can tell we got that chemistry
We can start some trouble, come with me
It's our night, it's our night, whatchu wanna do?

Pretty boy, boy, oh, oh, you know I want you right by me
Pretty boy, boy, oh, oh, you may live a fantasy
Pretty boy, boy, oh, like my music in the perfect key
Hey, tonight's the big one and we gon have big fun
Tell me you can handle it and come on and get some

Pretty boy, listen up, I could put you on
To the n-n-next level that you should be on
Pretty boy, listen up for a night in town
It's soaking over here, come and wipe me down

The room is on fire, I'm so buyin' higher
I wanna go, do ecstasy, take me
Takes a lot to bring me but you can get it
Look in your ego, I don't need to get low to get you home
Don't think just listen when I speak, oh boy
I'll show you how to push up on a pretty boy

Oh, oh, oh boy, I know that you been watchin' me
I can tell we got that chemistry
We can start some trouble come with me
It's our night, it's our night, whatchu wanna do?

Pretty boy, boy, oh, oh, you know I want you right by me
Pretty boy, boy, oh, oh, you may live a fantasy
Pretty boy, boy, oh, like my music in the perfect key

Hey, hey, hey, hey, hey

If you knew what was good for you
You would get with the program
Before I cut you loose
Get your mind right, get your mind right
I can make it one hell of a night, oh

If you knew what was good for you
You would get with the program
Before I cut you loose
Get your mind right, get your mind right
I can make it one hell of a night, oh
