And you say that I need to think about the past.  
When that chick was callin', playin' on my phone 4 in the mornin', talkin' (uhhh)  
It's about to be on, if she don't back up off me.

And now you say that I changed, and you don't like how I get down.  
Tellin' him I ain't even gonna stick around, just 'cause you see me on the T  
V,  
ya think I'm a leave my baby.  
Just because I'm sitting next to Diddy.

So tell me what you on, tell me what the hell you want, need to worry 'bout  
your own.  
I'm a have to put you on (blast).  
'Cause we look so fresh together, can't nobody do it better.

And I don't care what they say I'm gon' stay with my baby.

Tell me why you in my B-I-Z.  
Your gonna make me get my vasoline.  
You don't wanna catch the third degree.  
Back up, I need 50 feet (Ha).  
I don't think ya really want it.  
I don't think ya really want it.

Cause it's 70 degrees, and sunny over here  
So you can stay up out my ear,
