

Baby Hates Me

Danko Jones

My favourite situations
Are always sticky kinds
I'll be the first to cast stones
I don't let sleeping dogs lie

I'll sing it from a mountain
Just take me to the top
I'll scream until my lungs pop
I'll stand here 'til I drop.

The feeling is leaving
It's all gone, it's decieving
If we don't stop, put me in a coffin
'Cause you and I had absolutely nothing in common

Baby! I know you hate me
And you can't shake me

You make me rock solid, hot and bothered
It don't matter I can shake you

You used to be so special
Now I'm bored all the time
You think the same of me too
Just say it don't be shy

The feeling is leaving
It's all gone, it's decieving
If we don't stop, put me in a coffin
'Cause you and I had absolutely nothing in common

I used to want you
(Baby)
Now I don't want to
(I know you hate me)
Time to start moving on
(But you still crave me)
(You just amaze me)
I used to want you
(And you can change me)
Now I don't want to

You make me rock solid, hot and bothered
It don't matter I can shake you

Oh baby, it's been a long time comin'
And it's just the way it's gotta be
But I know this is one thing
One thing we won't fight about
And you can put my name on the dotted line

Yeah
(Baby! I know you hate me)
I used to want you
(But you still crave me)
Now I don't want to
(You just amaze me)

Time has stopped moving on
(And you can't shake me)
(I know you hate me)
I used to want you
(And you can't shake me)
Now I don't want to

You make me rock solid, hot and bothered
It don't matter I can shake you
