

Bounce

Danko Jones

I love your black dress, your red lips, your long legs, your high heels

I love your thigh high boots, your snake skin one piece suit

Yeah you really get me goin when you put it all on

But I like it a little better when you take it all off

Baby come on

Put it all on

Baby come on

Now take it all off

I love your leopard spot bikini and your black kangol

I love it when you hop out of bed and dance to the radio

Yeah you really get me goin when you put it all on

But I like it a little better when you take it all off

Baby come on

Put it all on

Baby come on

Take it all off

Now watch me take it off

I love the way you keep me movin' every time your standing still

I love that look in your eyes when you're lickin' your lips

Yeah you really get me goin when you put it all on

But I like it a little better when you take it all off

Now baby come on

Put it all on

Baby come on

Take it all off

Baby come on

Put it all on

Baby come on
