# I Believed in God

**Danko Jones**

I thought he would never let me down
So I raised my arms and fell to the ground
When I believed in god

When she walked out in the middle of the
Room – I believed in god – I raised my arms
And fell to my knees – and I believed in god
The sun shone on her beautiful eyes – and
I believed in god – she made everything
Wrong into everything right
And I believed in god

But he's evil
He's evil – he's evil – he's evil

'Cause she don't want me

When she turned round and was bathed
In light – I believed in god – the sky parted
As the day turned to night – and I believed
In god – choirs sang from up above – and
I believed in god – when I realized I could
Fall in love – I believed in god

But he's evil
He's evil – he's evil – he's evil
'Cause she don't want me

Praise god when you see her face
When she walks by you will speak his name
But when you're broken-hearted
You'll know where evil started
It's spoken with her eyes
Hallowed in disguise
I wanted her with me
But now it's plain to see
All hope is gone

When she walked out in the middle of the
Room – I believed in god – I raised my arms
And fell to my knees – and I believed in god
The sun shone on her beautiful eyes – and
I believed in god – she made everything
Wrong into everything right
And I believed in god

But he's evil
He's evil – he's evil – he's evil

'Cause she don't want me

Praise god when you see her face
When she walks by you will speak his name
But when you're broken-hearted
You'll know where evil started
Praise god when the light hits her face
When she walks by you will speak his name

But when you're broken-hearted
You'll know where evil started
