

I Like to Ball

Danko Jones

Ooooh my hand walking up and down your leg
I can see while I'm so close to your mouth
I think you know by now I like to ball
In the morning, evening, baby, whatever turns you on

You know what, I'm making a movie, that's right,
And I want you to be my lead star
So what if we roll those cameras, turn on those lights
And I'm gonna yell out "Action"

My hand walking up and down your leg
I can see while I'm so close to your mouth
I think you know by now I like to ball
In the morning, evening, baby, whatever turns you on

And you know what, we been going out for a few months now, and,
ah
I think I should meet your mom and dad
Oh, you can trust me, baby, I'm a gentleman
But watch out

My hand walking up and down your leg
I can see while I'm so close to your mouth
I think you know by now I like to ball
In the morning, evening, baby, whatever turns you on
