

# Sound of Love

Danko Jones

You got a broken heart that just won't fix  
You can't stop cryin' 'cause you miss your miss  
Get her outta your head  
Try someone new instead and feel alright

Just look at me man, I was just like you  
I loved a girl but then we were through  
Everytime you commit  
You're only gonna split and say goodbye

So are you in or are you out?  
Huckle up baby  
To the sound of love

With the fall in love but then you fall out  
You say forever but I give you about  
A month at the most  
You always get bored and leave in the dry

You'll find true love with a woman not a girl  
You'll know it's her when she becomes your world  
When you're together  
You won't notice time will just fly by

Can you hear that sound?  
That's the sound of love

So are you in or are you out?  
Huckle up baby  
To the sound of love

So are you in or are you out?  
Huckle up baby  
To the sound of love

Everytime you see her she'll get a little hotter  
Everytime you see her she'll get a little hotter  
Everytime you see her she'll get a little hotter  
Everytime you see her she'll get a little hotter  
Oh yeah,  
Yeah, yeah, yeah, yeah

Beautiful girl, have your time  
Just relax and wait awhile  
Oooh, I caught you lookin', let's start some cookin'  
You know what I'm sayin'?

Can you hear that sound?  
That's the sound of love

So are you in or are you out?  
Huckle up baby  
To the sound of love

Now where the pretty girls at?  
'Cause I'm the man with a black hat  
This is the sound of love
