

# Take Me Home

Danko Jones

It's getting on  
I've done this all before  
Hotel to motel  
Motel means all alone

I sense a recurrence  
It's happening again  
So let's do it one more time  
Before we go to hell

Grab the keys  
Start the car  
Take me home  
To where my records are  
Hit the gas  
Take the open road  
I'm turning on the stereo  
First thing when I get home

Time's moving on  
I haven't slept for days  
It's eating me up inside  
Inside I've slipped away

I know it's getting closer  
I feel I'm almost there  
Still one more time can't hurt me  
But I won't shed a tear

Grab the keys  
Start the car  
Take me home  
To where my records are  
Hit the gas  
Take the open road  
I'm turning on the stereo  
First thing when I get home

The time has come  
Been waiting for so long  
It's written on my face  
My face has turned to stone

Not asking for your sympathy  
I just want out of here  
So scratch the day off the month  
And say the coast is clear

Grab the keys  
Start the car  
Take me home  
To where my records are  
Hit the gas  
Take the open road  
I'm turning on the stereo  
First thing when I get home

Grab the keys  
Start the car  
Take me home  
To where my records are  
Hit the gas  
Take the open road  
I've had enough  
Now take me home
