

# Type of Girl

Danko Jones

She's the type of girl all the other boys  
Want to know

You want to know what's hiding  
Behind those blue eyes baby!  
Don't care how good she looks  
She's shook and you know it  
I bet there's crazy going on in her mind  
She'll be a helluva time but nickel  
And dime  
And when the tables turn you know  
Who's gonna get burned  
Don't think I have to spell it out  
No matter what's out of her mouth  
If you listen you get what you deserve

She's the type of girl all the other boys  
Want to know  
She looks good but you know it's all just  
For show  
Yesterday she winked at me but  
Nothing more

Don't you take it from me I only know what  
I'm talking about  
I've had it done to me too many times  
But it's too late when you realize  
That there's something about her that  
Makes you walk on the ledge  
Don't try to skim on the lovin' this ain't no  
Breakfast in bed  
It's gonna take what you got and even that  
Ain't enough  
You're gonna live these words I said

She's the type of girl all the other boys  
Want to know  
She looks good but you know it's all just  
For show  
Yesterday she winked at me but  
Nothing more  
She's the type of girl all the other boys  
Want to know

When you've got diamonds for eyes life lets  
You by  
You always feel like she's cutting in front  
Of the line baby  
When you've got diamonds for eyes you're  
Always right  
You always see everyone taking her side

She might have what it takes but with her I  
Put on the brakes

She's the type of girl all the other boys  
Want to know

She's the type of girl all the other boys  
Want to know
