

29 Nights

Danni Leigh

A thousand miles
A month of emptiness
A million tears have been dried
I recall the look in your eyes
When I told you goodbye

You said darlin', you're makin' a big mistake
And you'll never see it through
It's been 30 long days, 29 nights
And I'm still over you

The pain of doubt
The fear of loneliness
They're behind me now
And memories that used to torture me
They don't bring me down

Never let myself completely fall apart
Like you said I'd do
But it's been 30 long days, 29 nights
And I'm still over you

Over you
I'm over you
Still over you
Over you

You said darlin', you're makin' a big mistake
And you'll never, no, you'll never see it through
But it's been 30 long days, 29 nights
And I'm still over you

Over you
I'm over you
Still over you
Over you
