

## A Far Cry From Here

Danni Leigh

(Malcolm Holcombe)

I've heard misfortune blossoms  
And wasted ways before me by the cause  
Of giving someone time enough for spending  
Love only borrowed  
I've placed myself at ease  
Listening to the lies and self-belief  
Of wanting something close enough for keeping  
A far cry from here  
But I believe in wasting years  
To speaking of the deer who has been spared  
Innocence so near  
A far cry from here  
Even still, the night's passing  
Behind a heart, an emptiness still follows  
The distance stands the swallow's heart from lending me  
Love only borrowed  
But I believe in wasting years  
To speaking of the deer who has been spared  
Innocence so near  
A far cry from here  
Some are sad of truly knowing  
There's belonging in just longing for someone  
My shoulder rests a road I only follow  
Love only borrowed  
But I believe in wasting years  
To speaking of the deer who has been spared  
Innocence so near  
A far cry from here  
A far cry from here  
A far cry from here
