(Jim Lauderdale) Divide and conquer That's what it's gonna do Getting near every time She gets close to you Crying on her shoulder You say she's just your friend Why's she standing in the wings Waiting for us to end You don't have to be afraid While I'm away So don't go crying wolf To one who's gonna stake its claim Divide and conquer Tearing us apart Hitting me where it hurts Taking you by the heart You don't have to be afraid While I'm away So don't go crying wolf To one who's gonna stake its claim Divide and conquer I think you know it's true Always sticking up for her In everything that she'll do Divide and conquer Divide and conquer Divide and conquer
