

Little Things

Danni Leigh

Little things you do
Lead me on
Weak in those knees
Till all my will is gone
You don't want this heart
No, you go too far

The way you use your eyes
Mesmerizes me
With those lips and that kiss
I'm gonna be
Cast in your arms
Taken by your charms
And all your little things

I can't hold back, baby
Please, please, please, won't you save me
With just one touch, or I'll go crazy
Little things

I can't hold back, baby
Please, please, please, won't you save me
With just one touch, or I'll go crazy

Little things you do
Turn me on
Makes me feel like you're the one I want
Honey, there's no doubt
Don't want to live without
All your little things

Honey, there's no doubt
Don't want to live without
All your little things
