

Be Careful

Dannii Minogue

You better be nice, you better think twice, you better be careful
You better be nice, you better think twice, you better be careful

Are you dreaming, I can see it in your eyes
Something tells me, you're about to say goodbye
And I wonder, are you tired of my touch
Once you held me now it doesn't mean as much
You don't love me like you used to love me baby
Body, soul and mind, hey hey hey
Before you go, throw it all away, take some advice

You better be nice, you better think twice, you better be careful
Good love is hard to find, I ain't lying
You better be nice, you better think twice, you better be careful
'Cause if you lose my love you'll be crying

If you go look before you leap, here's a reason
Love don't grow on trees, just remember
When I'm slipping through your hands it won't be easy
To bring me back again
In a world filled with every known temptation
You can pay the price, hey hey hey
Before you go, throw it all away, take some advice

You better be nice, you better think twice, you better be careful
Good love is hard to find, I ain't lying
You better be nice, you better think twice, you better be careful
'Cause if you lose my love you'll be crying

You better be nice, you better think twice, you better be careful
Good love is hard to find, I ain't lying
You better be nice, you better think twice, you better be careful
'Cause if you lose my love you'll be crying

Oh just think about it
Ooh you better be careful
Oh just think about it
Ooh yeah aww, you better be careful
Hey yeah whoo ooh oh
You better be
Doo doo doo doo doo yeah
Doo doo doo doo doo yeah
Doo doo doo doo doo yeah
Doo doo doo doo doo

You better be nice, you better think twice, you better be careful
Good love is hard to find, I ain't lying
You better be nice, you better think twice, you better be careful
'Cause if you lose my love you'll be crying

Oh boy you better look before you leap
Look before you leap
Doo doo doo doo doo yeah

You better be nice, you better think twice, you better be careful

'Cause if you lose my love

You better be, better be, better be, better be careful

Oh oh

If you lose my love

If you lose my love

If you lose my love

Hey oh
