

Until We Meet Again

Dannii Minogue

I'll be here, I'll be
I'll be, I'll be
I'll be here, I'll be
I'll be, I'll be
I'll be here

I never thought that I could carry on this way
Missing you every second, wanting you each day

When you come around
You know you drive me wild
I never want the day to end
But when you go away
It's just another day
I can't wait 'til we meet again

Is it the last time
Until we meet again
Is it the last time
Until we meet again

Can't stop anticipating how you make me feel
When you're not here
I'm craving for the love you give

When you're by my side
You make me come alive
You take me where I've never been
But when you're not around
You leave me feeling down
I just can't wait 'til we meet again

Is it the last time
Until we meet again
Is it the last time
Until we meet again

I'll be here, I'll be
I'll be, I'll be
I'll be here, I'll be
I'll be

Until we meet again
Is it the last time
Until we meet again

I'll be here
I'll be here
I'll be here
To turn to, say that you need me
To turn to, say
I'll be here
Until we meet again

Is it the last time
Until we meet again
I'll be, I'll be

I'll be here
Is it the last time
Until we meet again
I'll be, I'll be
I'll be here
