

# Wish You'd Stop Wishing

Dannii Minogue

Hey boy, I wish you'd stop wishing, ooh ooh ooh  
Mmm ooh, yeah yeah yeah  
Wishing boy, ooh

When I saw you the other day  
I smiled but you just turned away  
I had to say myself remember  
He likes to stay in his shell all alone

As I went along on my way  
I knew you had so much to say  
The words were locked deep inside  
That's alright I'll give you every sign that I can

Now I know a girl who's got a crush on you  
But she is just a little shy and a little proud  
Now you know you've had the time  
To think it through don't make me wait  
Another day, let it out

I wish that you'd stop wishing  
And finally ask so we can get started  
On a love that will last  
All the time we've wasted we'll never get back  
So I wish that you'd stop wishing and finally ask

As I sit here and make believe  
I know that you are watching me  
Your eyes are burning a hole through my heart

If there's a place we can start let's begin  
Now it seems to me you want me to give in  
And make a move showing you that I care  
But my love is still a prize that you must win  
Don't waste a chance to take my heart while it's there

I wish that you'd stop wishing  
And finally ask so we can get started  
On a love that will last  
All the time we've wasted we'll never get back  
So I wish that you'd stop wishing and finally ask

Wanna get started now, can we get started now ooh  
I wanna get started now, yeah yeah  
Don't make me wait another day  
Cause you know you've had the time to think about me  
All the time we've wasted we'll never get back  
So I wish that you'd stop wishing and finally ask

I wish that you'd stop wishing  
And finally ask so we can get started  
On a love that will last  
All the time we've wasted we'll never get back  
So I wish that you'd stop wishing and finally ask
