

You Won't Forget About Me

Dannii Minogue

Our first and last summer together
We shared the passion till the end
I found a friend I will remember
I'll never feel the same again
(now that's its over)

Living the dream
I'm Breathing in deep
let it go (now that it's over)
It's good to know, yeah it's good to know that

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

I hear the music over and over
The memories play on and on
I'm living this dream
I'm breathing in deep
Then I hear you say
As you drift away
That it's good to know, it's good to know that

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

I'm living the dream
When I'm breathing in deep
Want it all on repeat
Play it on and on
'cause' it's good to know that

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

You won't forget about me
As long as you live, as long as you live

You won't forget about me
I promise you this
As long you live
