

# Adderall Admiral

Danny Brown

Eating on an Adderall, wash it down with alcohol

Writing holy mackarel, actual all factual  
Out for the capital, matador ya capsules  
Hassle the bitch in a castle with the ill grapples  
Tackled her asshole, my dick was like a lasso  
Fucked her in her mouth she washed it down with Tabasco

You softer than Flanders' son  
Don't make me put hands on son  
Jump niggas like "Fuck one on one."  
Used to be locked up watching One on One  
Young Kyla Pratt was looking thick, nigga wanted some  
But soon as I got out white bitches by the tons

I fuck bad bitches to Stacy Lattisaw  
While you niggas got blue balls like a Avatar  
Eating caviar in El Salvador  
She running from my dick like it's a bull and she the matador  
She a pregnant labrador  
Said my metaphors are the highest caliber

I spit hard, you hallmark card poets  
So many lines, you can bar code it  
She like to lick it on the head while she slow stroke it  
Ocean in her panties and I'm 'bout to float through it  
Rewind this and just smoke to it
