

## Outer Space

Danny Brown

It's the Adderall Admiral, Writing holy macarel  
Your bitch say my dick long like the strap on a satchel  
I took me a capsule with no hassle  
Now it's like I dip feathers of ink in a castle  
A prodigy like bullets hit your left clavicle  
No sweatsuits and paint the avenue  
You have no clue like toy stores with no board games  
But when I paint pictures I'm dipping brushes in war paint  
I'm a motherfucking mother fucker  
Fucking on your mother with two rubbers, I do fucker  
No cover just her booty on a pillow  
Your bitch said my dick tastes like Tropical Fruit Skittles  
I'm bumping BO Wither, Swishers on Schwarzenegger  
Matter fact, nah nigga they on Boa Constrictors  
They'll choke a nigga  
These niggas ain't rappers they motherfucking characters  
Caught your baby momma horny then I stuck a carrot in her  
Then you made a salad with her, ate that shit for dinner  
I don't want that skinny bitch look like that ho from Thinner  
Swore she played soccer she was real good with headers  
Had me yelling "Goal!" while I was sitting on the dresser  
Give the bitch a hat trick, smoking on the cat piss  
I keep the bitch wet, around you she's a cactus  
I got them Penis Psalms for your Vagina Monologues  
Love a feminist bitch, oh, they get my dick hard  
So no apologies for all the misogyny  
I just want some company to come and watch some porn with me  
My oral orchestration causes manipulation  
The way these hoes be chasin though I had the tongue of Satan  
But I just gave em dick they more for conversation  
Why you niggas tricking giving your obligation  
You safe havens, I'm Wes Craven with Ex cravings  
Fuck a bitch mouth until her fucking face cave in  
Hidden cams in her house, I caught her masturbating  
Extorted her for the cash, now yo ass payin  
You Captin Save-Em-Ass Nigga  
I don't give a bitch shit but hard dick and liquor  
So nice to meet you, I hope that you're safe  
(Meet the future face to face)
