End Of The World

Danny Fernandes

Gave you my heart when I gave you my name
Looking back is no one but myself to blame
Blind to the truth should've seen it in you, I'm dying.

I heard it from a friend the day that we broke
Can't believe you let me be the last one to know
Did you love me that much?
Trade it and trust, I'm dying

[Chorus:]
It's the end of the world, you're a liar
You said that we were forever
You loved me with your fingers crossed
It's the end of the world, you're a liar
My heart is burning, you're the fire
I hope that those years that I lost
It's the end of the world,

I'm tryin' to move on, I'm tryin' to let go
But memories if you have got me losin' control
I'm out of my mind, wanna leave you behind, I'm dying.

And all this time
Not sure I'll make it through, no

[Chorus:]
It's the end of the world, you're a liar
You said that we were forever
You loved me with your fingers crossed
(said you love me, said you love me)
It's the end of the world, you're a liar
My heart is burning, you're the fire
I hope that those years that I lost
It's the end of the world,

Confused my heart like it was that you
And you let me here on the battle field
Now are two worlds apart.

It's the end of the world, you're a liar
You said that we were forever
You loved me with your fingers crossed

[Chorus:]

It's the end of the world
It's the end of the world.
