

# Hey Stranger

Danny Fernandes

My world froze, stopped, when you walked by  
Woah (oh), hey (girl), stop (wait), hi (hi)  
It was wrong how we finished  
Got a feeling it was wrong how we finished, finished  
See your face for a minute  
Girl I gotta see your face for a minute  
And I'm like  
Hey hey stranger (8x)

Hey girl it's been a while, been a while  
Since I saw your face  
And girl it made me smile, made me smile  
I'm not over you  
And it may take a while, take a while  
When you have enough space  
Don't wanna throw it away  
And I can see it in your eyes

Where you been  
Where you going  
Where you coming from  
How you been  
Baby tell me if you're needing some  
(2x)

My world froze, stopped, when you walked by  
Woah (oh), hey (girl), stop (wait), hi (hi)  
It was wrong how we finished  
Got a feeling it was wrong how we finished, finished  
See your face for a minute  
Girl I gotta see your face for a minute  
And I'm like  
Hey hey stranger (8x)

Girl you don't gotta go, gotta go  
We can work this out  
Baby it's possible, possible  
I thought about you every day  
You gotta know, gotta know  
My heart still remains  
My love for you never changed  
And you can see it in my eyes

Where you been  
Where you going  
Where you coming from  
How you been  
Baby tell me if you're needing some  
(2x)

My world froze, stopped, when you walked by  
Woah (oh), hey (girl), stop (wait), hi (hi)  
It was wrong how we finished  
Got a feeling it was wrong how we finished, finished  
See your face for a minute  
Girl I gotta see your face for a minute  
And I'm like

Hey hey stranger (8x)

My world froze, stopped, when you walked by
