

One Call Away

Danny Fernandes

You can call if you wanna come roll with me, I'm always one call away, you can call if you got no place to be, baby, I'm always one call away,

You can call if you wanna come roll with me, I'm only one call away, you can call if you got no place to be, baby, I'm only one call away,

It's such a shame she's only sixteen, and she's never listening, coz her parents just don't know, and everydays the same way, so much that she don't say, tryna grow up on her own, so many problems, she feels like nobodys got them, like she's the only one in this world, but she just needs, someone to sing to her,

You can call if you wanna come roll with me, I'm always one call away, you can call if you got no place to be, baby, I'm always one call away,

You can call if you wanna come roll with me, I'm only one call away, you can call if you got no place to be, baby, I'm only one call away,

Shortys at the payphone, wishing she can call home, she don't wanna run nomore, but coz her daddy makes her, the streets are so much safer, than what's waiting behind that door, so many problems, she feels like nobodys got them, and she's the only one in this world, and I just wish that I can sing to her,

You can call if you wanna come roll with me, I'm always one call away, you can call if you got no place to be, baby, I'm always one call away,

You can call if you wanna come roll with me, I'm only one call away, you can call if you got no place to be, baby, I'm only one call away,
