

# She Won't Leave

Danny Fernandes

Killing me down to the bones  
Little by little I fall apart  
Looks like the curtains are closed  
And that's left is this broken heart

What's this that you're speaking of?  
Every second she'll be talking bout that love  
What you know about me?  
Is she like a drug  
Cause once you get it one time  
You just never get enough

She won't leave  
No she won't, no she won't  
No she won't, no she won't  
She won't leave  
No she won't, no she won't  
No she won't, no she won't  
She won't leave  
No she won't, no she won't  
No she won't, no she won't  
She won't leave  
No she won't, no she won't  
No she won't, no she won't leave

No she won't, no she won't  
No she won't, no she won't  
No she won't, no she won't  
No she won't, no she won't
