

Unpredictable

Danny Fernandes

You tell me you want it but only when you need it
You gotta have it your way
But why you gotta be that way, girl?
You're unpredictable
Unpredictable

Your body, your body, your body, your body
Belongs to you, girl
And you know what to do
Raging in with you
Unpredictable
Unpredictable

I know why your head is flying high in the sky
Your simple disregard to my request is taking me high
But I can't have you 'round, girl, I'm tell you why
You're unpredictable
Unpredictable

Now why you gotta look at me alone that way?
I ain't 'bout that shit, girl
So tell me why you 'bout that shit, girl
You're unpredictable
Unpredictable

I know why your head is flying high in the sky
Your simple disregard to my request is taking me high
But I can't have you 'round, girl, I'm tell you why
You're unpredictable
Unpredictable

Left, right, left
Left, right, left
Left, right, left
You get in line
Girl, get it
And I tell you
You're out of your mind
Said you're out of your mind
You're unpredictable
Unpredictable

I know why your head is flying high in the sky
Your simple disregard to my request is taking me high
But I can't have you 'round, girl, I'm tell you why
You're unpredictable
Unpredictable
