

# Hey (I've Been Feeling Kind Of Lonely)

Danny Saucedo

Hey

Hey

Hey I've been feeling kind of lonely since you left  
Working through the struggle, the pain within my chest  
But I don't know what it is

Hey I've been feeling kind of lonely since you left  
Working through the struggle, the pain within my chest  
But I don't know what it is

I've been searching for the remedy  
Give me something that will cure my wounded heart  
This is not my kind of melody  
But I can't help it baby now that we're apart

Didn't we have something going on  
Tell me 'cause I need to know where I did wrong  
Can't you see that I need you baby

Hey I've been feeling kind of lonely since you left  
Working through the struggle, the pain within my chest  
But I don't know what it is

Hey I've been feeling kind of lonely since you left  
Working through the struggle, the pain within my chest  
But I don't know what it is  
Hey

I've been down in total agony  
Is there something I can do to make it right  
Girl I feel that you're my destiny  
And I know it cuz it was love at first sight

Didn't we have something going on (going on)  
Tell me 'cause I need to know where I belong  
Can't you see that I need you baby

Hey I've been feeling kind of lonely since you left  
Working through the struggle, the pain within my chest  
But I don't know what it is

Hey I've been feeling kind of lonely since you left  
Working through the struggle, the pain within my chest  
But I don't know what it is

Oh I'm down on the ground on my knees  
I feel so confused  
'Cause you are the one that I need  
By my side in my life

Hey

Hey

Hey

Hey (Hey) I've been feeling kind of lonely since you left  
Working through the struggle, the pain within my chest  
But I don't know what it is

Hey I've been feeling kind of lonely since you left

Working through the struggle, the pain within my chest (Hey)  
But I don't know what it is  
Hey
