

# Only Wanna Be With You

Danny Saucedo

'Cause I only wanna be with you, nobody else could ever do me better.

'Cause I only wanna be with you nobody else could ever move me deeper.

So stay for life, you've got my dedication baby take it on.

So stay for life, you've got my dedication baby take it on

'Cause I only wanna.. (only wanna)....

'Cause I only wanna be with you.

Yeah I only wanna be with you.

You lift me up, make me feel like I'm a number one.

You've got the touch, and the night has only just begun.

I'm so alive, but I die a little when you go.

So stay for life, you've got my dedication baby take it on.

'Cause I only wanna be with you, nobody else could ever do me better.

'Cause I only wanna be with you, nobody else could ever move me deeper.

'Cause I only wanna be with you

Yeah I only wanna (only wanna..only wanna)...be with you.
