

# Turn Off The Sound

Danny Saucedo

(Can someone please turn off the sound,  
can someone please turn off the sound)  
I've been crying since you left this morning  
Teardrops on your bed, low where I still feel your  
lesson.  
Laying down on the ground  
Long for silence in my head  
Falling flat, so profound

Can someone please turn off the sound  
Can someone please turn off the sound  
Can someone please turn off the sound

Somewhere, somehow  
I know you still love me  
Deep inside of your heart  
Please don't deny this one love!  
Take me there to the place where there's no more tears  
and pain  
See the world spin around

Can someone please turn off the sound  
Can someone please turn off the sound  
Can someone please turn off the sound

Take...take...take me away, I gotta get out of here  
Need...need...need to reraise, the quiet and disappear  
Lay down, on the ground  
Keep falling so profound  
Can somebody please t-t-turn off the  
sound...sound...sound... sound... sound..  
Turn it off  
sound...sound...sound..  
Turn it off  
turn if off  
turn off the sound  
(sound)

Can someone please turn off the sound  
Can someone please turn off the sound  
Can someone please turn off the sound  
Can someone please turn off teh sound
