Hello everybody let's gather around  
We're spreading love all through this town  
Shout out, jubilation that's going on and on and on  
From dusk till dawn  
Get down, to the music that adds the life  
You feel the difference like day and night  
Come on, don't be late, please don't hesitate  
It's a super jubilation, three cheers for the band

You're looking good like we knew you would  
Rejoyce, while you're smiling from ear to ear  
Want it to last down through the years
