Danzel

Come on and jump, all night
In the neighbourhood, don't feel alright
Come on and jump, all night
Wanna party, 'till the morning light
Come on and jump

Vegas on a Saturday, middle of the night
You where there and caught me by surprise.
Hard to handle traffic jams, people passing by
I could swear you looked me in the eyes.
And when a car slowed down,
Filled with party people,
You turned your head around
And left me the crowd
So I stopped a cab, filled with party people
I turned da wheel around,
They started singging loud.

Come on and jump, all night
In the neighbourhood, don't feel alright
Come on and jump, all night
Wanna party, 'till the morning light

Come on and jump, all night
In the neighbourhood, don't feel alright
Come on and jump, all night
Wanna party, 'till the morning light
