Bringer of Death

Danzig

See the devil kiss the hand of god See the devil crying tears of flame See the devil bite the hand of christ And know the devil is the work of god

And all the devils do the work of god In this season of the world's demise Upon the wings of the fallen dream I hear the sound of a bleeding mind Bringer of death Bringer of death

The angels smile is a smile of shame
They bring the tortures that infest the earth
See the warlords of heavenly rank
And know that war is the will of god
Bringer of death
Bringer of death
