Come to Silver

Come to silver Come to gold Come do any old thing Sell your body and soul Make you kill a man Ruin your soul Come to silver Come to gold Come to silver Just as hard as you can Come do anything For life of sin You can have everything Big house up on a hill Come to silver Come to kill Come downhearted Come to gold It'll make you lose your way Turn your heart so cold Steal the wife of another man Let money buy her love Gonna be some hard time When you come to gold If you come to silver If you come to gold Hope that you're happy With the life you've sown Coulda had everything But you didn't want to know You had to come to silver You had to come to gold
