Devil's Angels

No place of our own Nowhere we can be alone Nowhere we can go Where the people don't know That we're devil's angels

Angels on the run We can't see the harm that's done Thinking all along That it's right to be wrong When we'reD devil's angels

Angels riding into hell Riding into hell Like thunder Motherfucker!

Looking for the way Hoping we don't have to pay But we never learn Angels can't get burned When we're devil's angels Danzig
