

Girl  
Let's climb too high  
Let's climb too high  
For the stars  
To reach us girl

Girl  
I'm gonna take you hard  
I'm gonna bring you higher  
Than your mind  
Can take you

Girl, let's climb too high  
Let's climb too high  
For the world to reach us girl  
Girl, let's flee the light  
Diaphanous  
Let's slip into the night

Girl  
I'm gonna slip inside  
I'm gonna slip inside  
Fly on fire to your mind

Girl  
I'm gonna take you hard  
Gonna take you harder  
Than your body can take you

Girl, let's climb too high  
Let's climb too high  
For the stars to reach us girl  
Yea

Girl, let's climb too high  
Let's climb too high  
For the world to reach us girl  
Yea

Girl, let's climb too high  
Let's climb too high  
Yea, let's climb too high  
Let's climb too high
