

## Left Hand Rise Above

Danzig

L.H.P.  
Is the road I'm on  
If you'd like  
You can come along  
Just make sure  
That it's what you want  
And your will  
Is strong

The brightest star  
You see  
Must always  
Be thee  
The greatest thing  
You know  
Comes not from above  
But below

Left hand rise above

Silver flame  
At my beck and call  
Light the night  
Of this phantom world  
Secret things  
That I come upon  
And the veil is gone

The brightest star  
You see  
Must always  
Be thee  
The greatest thing  
To be  
Is to be strong  
And free

Left hand rise above
