

Malefical

Danzig

And your death has come
Oh, your death has come
And you're standing there
While the west is done

And they both
Well, prepare to

And your knees are are scarred
While your tongue
And your wits are numb
To be melefical

For the fishing lines
In the gaseous sighs
...flames

Malefical
Malefical

Is a thing of fear
For the worst is done

To be malefical
Malefical
Malefical
