

## Not of This World

Danzig

Not of this world  
And nothing bites like I do  
Nothing screams out loud  
In this empty night  
Nothing can keep me from you

And you think that you know  
The reason I'm alive  
Truth is you only know the lies

Not of this world  
And nothing can hold it back  
I am the dawn upon  
Your bloody beach, come to pass

Not of this world  
For I am nothing known  
When the seasons shift  
They call my name to carry me home

And you think that you know  
The reason I'm alive  
Truth is you only know the lies

And I feel all the things  
You could never understand  
Choose where you stand  
Am I mortal, are you man?

Not of this world  
Nothing bites like I do  
Nothing screams out loud  
This empty night, keep me from you

Choose where you stand  
Am I mortal, are you man?

Not of this world  
For I am nothing known  
When the seasons shift  
They call my name to carry me home
