

## See All You Were

Danzig

Know you have a problem  
Can't you figure it  
Suddenly your lost alone  
As your statue splits

Now you walk this cruel world  
Lost among its pain  
See all you were in my world  
Never to regain

So you misbegotten  
Love so quickly fades  
So to be forgotten  
Tuned a grayer shade

See all you were in my world  
See all you were in mine

Now you know possession  
Million souls to steal  
Every night your death awaits  
Less and less to feel
