Angels fall to earth World heats down Cool
Now your heart is cold Waiting on the summer Of my soul

Devil-girl you must burn Burn at the touch Of autmn's breath Burn that heart of cold Simmering in the samhain Of my soul

Gotta wait
On the samhain of my soul
Gonna bring your wolrd
Down in fire

Angels fall to earth
World heats down
Oh now you heart is cold
Waiting on the summer
Of my soul

Gotta wait
On the samhain of my soul
Gonna bring your world
Down in fire

Gotta wait
On the samhain of my soul
Gonna bring your world
Down in fire

Come wrap my love in your house of ice
Melt you down more than once or twice
Make you shake till worlds align
See your body tremble with the blood on fire
'Cause the season in my veins
Will end your world
To the season of the flames you must pray and learn
Change all the things that you've ever seen
Change all vision
Kill all endings

Gotta wait
On the samhain of my soul, ooh yea
Gonna bring your world
Down in fire

Gotta wait
On the samhain of my soul, ooh yea
Gonna bring your world
Down in fire

Gotta wait

On the samhain of my soul, ooh yea Gonna bring your world Down in fire

Gotta wait
On the samhain of my soul, ooh yea
Gonna bring your world
Down in fire
