

## Farewell To The Old Me

Dar Williams

How can I ask love to hold the mystery  
When just look at me  
It's all push and pull collateral  
I don't want to be the one who gets the next surprise  
I'll plan it out this time  
Though I used to think that things were meant to be

So farewell to the old me  
Farewell to the old me  
My life is working better now  
It's always changing anyhow

I danced a lot of nights until the grass was wet  
It wasn't over yet  
'Round 'bout 3 a.m. you made a friend  
And I followed a lot of vital crazy thoughts  
Because it's where the meaning was  
And I tried to find it every other way

So farewell to the old me  
Farewell to the old me  
My life is getting better now  
But always changing anyhow

But I can turn on the charm  
Show them nothing more  
Than what I've done before  
It's nothing much new  
But it'll do  
'Cause I don't want to be the one who makes you laugh out loud  
I want to make you proud  
And you always said you knew what I could be

So farewell to the old me  
Farewell to the old me  
Farewell to the old me  
My life is working better now  
But always changing anyhow  
Time  
And the old me  
Farewell to the old me  
Farewell...
