

# I'll Miss You Till I Meet You

Dar Williams

I tried again, I went last night  
Another date was just not right  
And as I drove myself back home  
A little voice said "just be alone"  
But sometimes I think  
I see you in a crowd  
It's not picture perfect you're just meant for me somehow  
And I'll miss you till I meet you  
Oh I'll miss you till I meet you

I miss you all the time

I love the world just as it is  
And I won't lose my faith in it  
But there are days I think of you  
Saying "Hey that's beautiful yeah I see it too"  
It all goes by so fast, like waving hands  
Wanna capture things  
Find someone who understands  
And I'll miss you till I meet you  
Oh I'll miss you till I meet you

I miss you all the time

Can you keep me awake  
I thought you could help  
Just to feel my way  
Find my better self  
Oh I'll miss you  
Oh I'll miss you  
I miss you all the time

The morning's gone  
All dreamed away  
But that's all right  
It's Saturday  
When people think  
That they might see  
The next chapter of their destiny  
And on Monday morning comes around  
Get the work done but I listen for the sound  
And I'll miss you till I meet you
